ACKNOWLEDGEMENTS

I would like to thank the following people for their help with the format and appearance of the 1992 Lands Inventory: Anne Renaud, Karen Hillstrom and Darlene Edge for their help with the design and new format; Debbi King and Janet Gies for their help with input and typing; M.A.R.S. Stout Inc. for completing the file cleaning quickly and thoroughly; Harvey Tanttila for his gracious data processing support; all regional personnel who let me know what their specific needs are in the use of the land book; and especially, thanks go to Dan Stinson for providing the artwork and the regional map.

MONTANA DEPARTMENT OF FISH, WILDLIFE AND PARKS
LAND BOOK

v

INTRODUCTION

The Montana Department of Fish, Wildlife and Parks owns and manages lands valued by anglers, hunters, sightseers and other recreationists from Montana and throughout the United States.

The Department has acquired key properties to provide public access to lakes, streams, and rivers, to preserve Montana's natural resources, and to provide important wildlife habitat. Each of these properties offers numerous recreational opportunities for the public.

The land book has been produced every two years since 1956 to furnish detailed information about all lands owned and managed by the Department. Information continues to become more accurate as each file is cleaned, renumbered, and entered into the Lands Data Base. Computerization of land records has been an ongoing project since January of 1988. To date, land record entries total 1,578. This total will continue to grow as old files are cleaned and new files are entered. In addition, programs have been developed to facilitate the easy recall of data and to produce specialized reports on Department lands.

Site information in this book is grouped by Regions 1 - 9 (Region 9 includes only those sites directly controlled by Headquarters). Sites are listed alphabetically within each region. Each site listing includes a subtotal of acreages. A total of acreages and costs is included at the end of each regional listing. State-wide totals are found in the Appendices.

A new file numbering system is in place. Sites will be renumbered as computerization progresses; duplicate numbers will be eliminated. Because the sites are alphabetized within each region, a site/region index is included. A list of sites in order of township, range and section is also provided. Many sites are in more than one township and range, and include more than one section, and will therefore show up in this index more than once. If you need more detailed legal descriptions, please call the data base technician in the Land Unit for help.

This land book is deemed to be accurate based on the information currently available to us, and the progress made in computerization. The Land Unit can't warrant for its absolute validity. Until computerization is complete, many of the figures in this book will be approximations. We have included a form on the last page with which you may submit suggested corrections or changes for the next publication. If you need more detailed information on any given site, you may request a data sheet with complete information by contacting the data base technician. (See sample data sheet in appendix).

Because of the expense involved in the publication of the land book, only 50 copies will be made. If you would like to print extra copies, please send 3 high density floppy disks with your request to the Land Unit. We will copy the entire land book in WordPerfect format.

It is our hope that you will find this land book easy to read and follow. If you should have any questions please contact the Land Unit at 444-4063.

PAYMENTS IN LIEU OF TAXES BY
THE DEPARTMENT OF FISH, WILDLIFE AND PARKS

In accordance with state law 87-1-603 MCA, the Department of Fish, Wildlife and Parks is required to make payments to counties in lieu of taxes on all of its lands except for bird farms, hatcheries, parks sites, or land in counties in which the Department owns less than 100 acres.

The Department has been required to make this payment in lieu of property taxes since 1951. Original legislation was enacted at that time, because it was felt that the lands owned by DFWP were not of benefit to the general public, but to sportsmen only. Therefore, to minimize the impact of the Department's land ownership, the DFWP was required to make a payment "in lieu of taxes".

Since 1953, this same statute has required that these payments made to counties be equal to the amount of taxes which would be charged to a private landowner. The methods used by the counties to determine the value of the property and the tax rates and the mill levies applied are identical to those used to assess private landowners. The moneys are used by the counties for such things as schools, roads, fire protection, weed control, soil and water conservation, and special improvement districts.

For those lands supported by license dollars, these payments are made indirectly by sportsmen through the purchase of hunting and fishing licenses. Park lands are considered exempt from taxes, but must pay assessments for special improvement districts and other county services not considered taxes. Payments on park sites are currently made with coal tax dollars.

From 1951 to 1991, the Department of Fish, Wildlife and Parks has paid over \$2.6 million dollars to counties. The Department currently makes payments in lieu of taxes on more than 268,000 acres of land in thirty-four (34) counties. In 1991, more than \$242,400.00 in payments were made to Montana counties. Payments that year ranged from \$72.11 paid to Carbon County to \$36,965.07 paid to Yellowstone County.

The following table represents payments in lieu of taxes made by the Department for the last twelve years.

LEGAL DESCRIPTION

TOWNSHIP: T10N RANGE: R03W SECTION: 18

DESCRIPTION: THAT CERTAIN TRACT OF LAND LOCATED IN THE SE1/4SE1/4 SHOWN AS TRACT "B" OF THE CERTIFICATE OF SURVEY FILED UNDER DOCUMENT NO. 440380/B, RECORDS OF LEWIS & CLARK COUNTY, CONTAINING .23 ACRE, MORE OR LESS AND BEING SUBJECT TO ALL EXCEPTIONS, RESERVATIONS AND RESTRICTIONS OF RECORD.

COMMENTS

GENERAL: This property was acquired to provide more room for backing trailers into a covered storage area. Since most of the stored items are boats, motor boat fuel tax funds were used for a portion of the acquisition cost. SEE ALSO HISTORY FILE SID #337 HELENA WAREHOUSE 9009.8.
